

Name(s): _____

Research Planning Worksheet						
Step 1: List your exhibit focus question and research questions.						
Step 2: If you have your own questions in addition to the research questions for your exhibit, add them in Column 1.						
Step 3: Decide who on the team will research each question. You may have more than one team member working on the same research question.						
Step 4: Locate sources of information and include them in the appropriate column.						
Step 5: Review the completed plan with your team to make sure all team members understand their jobs.						
Focus Question:						
Research Question	Who will research this question?	Where will you look for information?				
		Books	Articles	Videos	People	Places
